Industrial Maid Model T 3000

Ambient Air Cleaners for filtering welding smoke and fumes.

The Industrial Maid T Series Push/Pull packaged air cleaners are the industry choice for the control of welding smoke/fumes and lowering maintenance costs. The light weight units are easy to install, simple to maintain and can be hung by chain or suspended with all thread rod. No ducting is necessary -making them easier to move when your business grows or your facility layout changes. Available in airflow ranges from 2500 CFM to 7500 CFM. Manufactured in the USA by **Industrial Maid** – 877.624.3247
